### How To Play

The All American Home Run Derby is pretty simple. Create a 5 man roster by selecting 1 player from each group of 5. You will be randomly matched up against another participant and the team with the most home runs at the end of the contest wins. There is no need to worry about any other stat or some complicated formula to figure out your score. The head to head matchups will be posted in the All American Matchups section on the main page of the site. Once you see who your opponent is you will need to go to the leader board to check both teams scores. You may enter multiple teams, even at the same dollar amount and not have to worry about playing yourself. We will always have you matched up against someone else.

Prizes The All American Home Run Derby offers 90% payouts. Below are the prizes for the head to head games we offer.

Entry Fee	Prize	\$10	\$18	\$25	\$45	\$50
\$90	\$100	\$180				

Winners will be paid within 5 days after the completion of the contest via PayPal. Winners understand that they are solely responsible for reporting their winnings on their US tax returns and it is not the responsibility of All American Fantasy Sports. Tie Breaker There is no need to select a tie breaker. The tie breaker will be determined by matching up your A List hitter against your opponents A List hitter and the higher total will take the prize. If the A List hitters also happen to tie or they are the same player, then the B List hitter will be matched up against each other and so on. If your team is identical to your opponents team then go and buy a lottery ticket because the odds of picking the exact same team is 1 in 3125. Now seriously, we will refund your entry fee.
